How would you improve this mobility activity?

9. Provide better information before the mobility activity.

If yes, please specify what information.

- Exact time guide even at the beginning of the day for better planning ahead.
- It would be the timing and conditions of the activities. The duration of trip and conference is quite intense! Spacing of time for travel would be required especially when carrying mobilities.

10. Improve/use different methodologies.

If yes, please specify what information.

- As each partner has specific activities, target group and beneficiaries, the methodologies they could apply are quite different. Thus, discussions could approach various methodologies and also their feasibility for each partner's activity.

11. Make the activities more stimulating.

If yes, please specify what information.

- More engagement amongst the participants. Plus more involvement of the area we are situated in for the mobilities.

12. Improve the organisation/timetable of the mobility activity.

If yes, please specify what information.

- I think the Mobility Activities should be scheduled for weekend and not weekdays.

13. What other improvements would you recommend for the next mobility activity?

- Accommodation of participants in one venue to enable better communication and "get-to-know-each-other".
- To have the list of participants and their contacts from the beginning of the meeting. Next mobility activity could include some site-visits to get more familiar with activities related to social inclusion, if possible.
- More activities for the mobilities. More time so they can reflect on what they have been doing whilst on the trip.

14. What was least valuable about this mobility activity?

- For native English speakers the language learning crash course is not so relevant, unless using another foreign language. This however, is more difficult to be implemented and to form a group as there might not be enough people interested in one particular language.
- All aspects were valuable more or less.

15. What was most valuable about this mobility activity?

- Learning about the best practices of the host organisation.
- The most valuable about this mobility activity was the interaction among participants with various cultural background, the intercultural exchange.
- The most valuable about this mobility activity was the field experience of the best practices of the hosting organization.
- Planning for the target groups suitable for the next mobility events.
- Learning what logrono had to offer and what voluntary work takes place plus the impact.

16. This mobility activity was a positive experience for myself. (1=Lowest mark; 5=Highest mark).

- Federación de AAVV de La Rioja: 5
- Malta UNESCO Youth Association: 5

- Fundatia Centrul de Resurse Pentru Diversitate Etnocultural: 5
- Stowarzyszenie WIOSNA: 5
- Association of Nigerians in Slovenia: 5
- Cantiere Giovani: 5
- Engage Youth Empowerment Services: 4

Conclusions by project partners:

The average satisfaction level was very high, however, according to some of the comments suggestions, project partners decided on the following changes:

- 1-To increase the duration of future mobility activities from 3 to 4 days;
- 2- To include a more detailed timetable in the next "Guide for Participants";
- 3- To do their in finding weekend dates which suit everyone for next mobility activities.
- 3- To make more of an effort in involving local organisations in the mobility activities as well as encouraging an active participation of both adult learners and teachers/trainers.
- 4- To try to choose the same accommodation facility
- 5- To exchange their participants details before each mobility activity.
